Stone Arch

Fountain

Bamboo garss

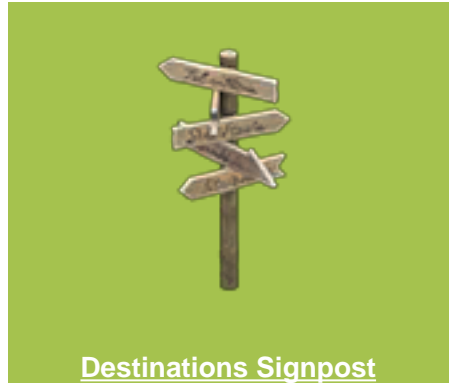

Bamboo Tree

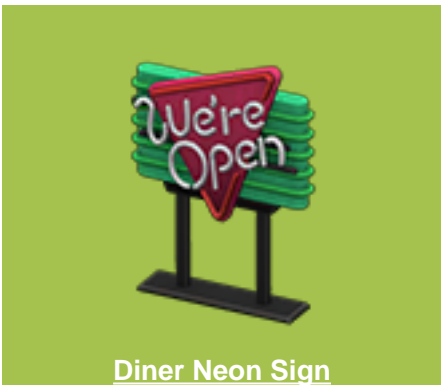

Bamboo Floor Lamp

Bamboo Bench

Destinations Signpost

Diner Neon Sign

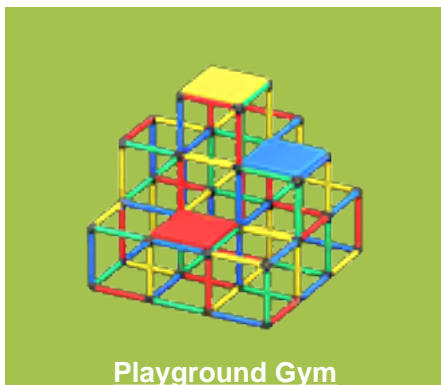

Flashy-flower Sign

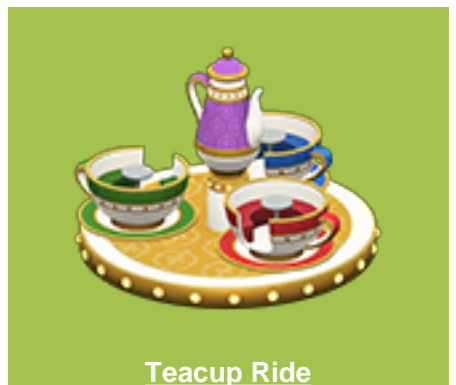

Gong

Pagoda

Playground Gym

Teacup Ride

Take a beautiful Spring Island tour in Animal Crossing New Horizons! This is a Japanese-style town surrounded by natural scenery, with many charming mini areas and experiential design ideas. The creator used custom Stone Pattern Paths on the island to create a suburban-style walkway and used multi-level cliffs to increase the island's elevation. In residential areas, the pink stone path adds warmth. The biggest highlight on this island is the Rock Garden

created using [ACNH items](#) such as Zen Set and Bamboo series. You can also visit the museum or relax in the playground next to it. In short, this island brings you a sense of comfort close to nature, while at the same time you can enjoy the comfortable life of a suburban town.

If you want to add Super Mario Designs to your island in this Spring season, don't forget to check out the [best Mario Custom Designs for path, clothing, floor](#) here.
