Part Item:

Mini Fridge

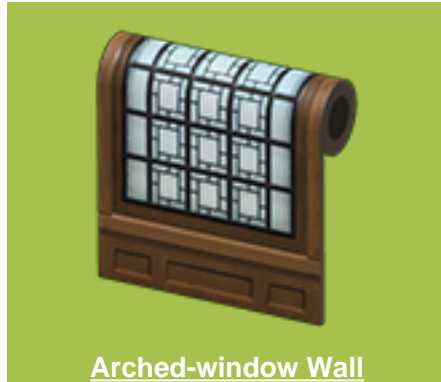

Table With Cloth

Utility Sink

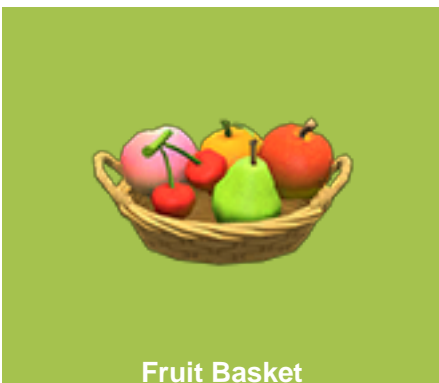

Water Cooler

Arched-window Wall

Basement Flooring

Fruit Basket

Stone Stool

Without Ironwood [furniture in ACNH](#), you can also create an elegant kitchen in your Animal Crossing New Horizons house. This is Medieval, Skyrim style kitchen, and it looks awesome. They completely nailed the look and it's a nice refreshing change from the standard Ironwood kitchen. Our favorite pieces are the brick oven and the wood-burning stove. The room uses a dark gray Basement Flooring, the classic Arched-window Wall, combined with White Brick Oven, Clay Furnace, Brown Imperial Chest, Black Mini Fridge, White Table With Cloth, Utility Sink, Water Cooler, and other kitchen items, form a classic but full of Cottagecore Style. If you are still lack of any items for build up your kitchen room, go to buy [ACNH theme packs](#) here.
