I hope you guys enjoy this quick-speed build of my living room! I like the simple and brief decorating, this is a great decoration idea. In this living room design, you can see the red vintage patterned walls, the closet with kitchen utensils, can also be seen as decorative items, while the Double Sofa|Yellow gives a warm feeling, so you can cozy up on the sofa and watch Wall-mounted Tv (50 In.)|Black, and when winter comes, the room can be warm with Campfire, and a Wooden Low Table|Light wood is set up to place items, and if you happen to be a pet lover like me, there is a Hamster Cage|Brown to feed your pet.
