This Animal Crossing New Horizons bright kitchen room feels incredibly inviting and makes use of a unique combination of brick walls, Pine-board Flooring, soft colors. For this kitchen design, youâ€™d add some Ironwood set [furniture](#) pieces in Oak and kitchen appliances in White, such as the Ironwood Cupboard, Ironwood Cart, Ironwood Kitchenette, Ironwood Low Table, Brick Oven, Double-door Refrigerator, and Gas Range. The white rug on Pine-board Flooring and white-oak ironwood items help tie the room together as they match other colors in the room. Some wall-mounted

decorations, such as the Bunny Day Wreath and Floral Swag, help to give the room a bit of color. It's also the small details, like the Knife Block and Pop-up Toaster on Ironwood Cupboard, Frying Pan above the Gas Range, or the Shaved-ice Maker on the Ironwood Cart, that really make this kitchen extraordinary cooking space.
