The creep graveyard design can bring special inspiration to Animal Crossing New Horizons players who like dark style. What makes this room stand out is the vast amount of dark-theme decorations, primarily from the skull series. To create a Chamber or a spooky room, and if you really want to create an atmosphere of horror, use Ramshackle Wall and Swamp Flooring for even more deathly goodness. Youâ€™ll surely need Western-style Stones, and youâ€™ll want to put a Skeleton on the front of the tombstone, and even a Creepy skeleton beside.
