Cancer Table

Gemini Closet

Pisces Lamp

Starry-sky Wall

In this Animal Crossing New Horizons video, we showcase a room created by Starry-sky Wall and Zodiac furniture (Aries Rocking Chair, Aquarius Urn, Capricorn Ornament, Cancer Table, Gemini Closet) is so dreamy and unparalleled. You™ need Starry-sands Flooring and Starry-sky Wall wallpaper to set up this living room idea. You™ also need to craft a Zodiac Series Furniture from rare Zodiac Fragments, so spend a bit of time outside and wish on some shooting stars! The space and zodiac furniture [DIYs](#) used here can be obtained when Celeste visits one's Animal Crossing New Horizons island. Using this illuminated furniture can eliminate the need for incandescent or fluorescent room lighting, too.
